Silicone moulds: A very complete range of moulds made from 100% silicone, the material that has revolutionized baking. Flexible, easy to use and resistant to high temperatures, they can be used to create cakes in the most imaginative shapes. Completely non-stick, they do not have to be greased or buttered. Supple and flexible, they take up little space and can be stored anywhere. With guaranteed Italian quality, they meet all the European food safety standards. Like all the other Chocolat lines by Giaretti, they are pleasing to the eye with their dark chocolate colour.

The Giaretti Silicone oven and freezer moulds resist to extreme temperatures, from -60° up to +260°C.

The Giaretti non-stick, flexible silicon moulds are produced from materials, which conform to current international standards in the food industry:

D.M. n°104 del 21.03.1973 (Italian law)

Arrêté du 25.11.1992 (French law)

BGVV (German law)

FDA (American law).
