# FASHION COLLECTION

A touch of fashion in the kitchen that combines usefulness with up-to-date design. The lines of frying pans with a good thickness made with attention to detail such as the decoration. Thickness of aluminium: 2.5 mm approx. Suitable for gas and electric hobs.

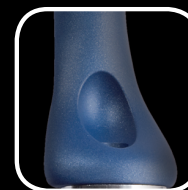

**Pop:** a line of frypans with a coloured handle, matching insert and a very attractive label, all inspired by the Swinging Sixties and the design that was all the rage at that time which has come forcefully back into fashion. Orange welded handle and cream ring, aluminium flameguard Exterior with pop art decoration.

**Jeans:** a line of frypans with a coloured soft-touch handle and a very attractive label, all inspired by the most famous garment in the world. Welded denim-coloured handle with a soft-touch finish, aluminium flameguard. Exterior with jeans decoration.

**Damas:** 2 different very trendy Oriental style designs, stylish color combination of handles and a very attractive label, giving the choice of 2 different decors. Welded color handle bright or soft-touch, aluminium flameguard. Exterior with full surface color designs.
