MADE IN ITALY

ROMA

ROMA

Three assorted colors: blue, red, grey

A line of very high level pans from both the aesthetic and quality points of view.

Made in bright red, blue and grey colours with matching soft-touch handles and manufactured with the revolutionary interior Dicotech Metalika coating that guarantees a non-stick resistance from 6 to 8 times greater than any other traditional coating. May be used with metal utensils with the exception of sharp utensils. Thickness of aluminium: 4.5 mm approx.

Welded ergonomic handle, colour matched with the frying pan with soft-touch finish, welded and with aluminium flameguard. Toughened glass lids with a stainless steel rim, bridge knob in a colour matching the handle and the frying pan.

Available colours: red, blue and grey.

Suitable for gas, electric, glass, ceramic and halogen hobs.

Resistant spray-coated base with central logo engraved
